

NORTH PACIFIC CONCRETE PUMPING

CONSTRUCTION: NEW COMMERCIAL & TENANT IMPROVEMENTS

LOCATION: LYNDEN, WASHINGTON

Construction of a 124' x 48' Pre-engineered steel building with 6 shop bays to house concrete pump trucks. Includes a front office and showroom area and a mezzanine for future growth.

CUSTOM BUILDING FEATURES

Customer needed concrete aprons and large overhead doors to park 6 concrete pump trucks within the building.

STRUCTURAL INTEGRITY

Reinforced concrete slabs combined with clear span construction create wide, column free interiors for an open adaptable building layout.

FULLY INSULATED & HEATED

Full insulation and efficient heating create energy efficiencies by establishing a tight, thermal barrier that reduces heat loss and HVAC systems energy use.
